SUMMARY

Results-driven Flutter Developer with hands-on industry experience delivering production-grade cross-platform mobile and web applications. Proficient in GetX, WebRTC, REST APIs, Firebase, and CI/CD pipelines. Adept at translating complex business logic into clean, scalable, maintainable code.

TECHNICAL SKILLS

Technologies: Flutter, Dart, GetX, Firebase, REST APIs, WebRTC, SQLite, MySQL

Tools: Git, GitHub, GitLab, Postman, Google Play Console, Apple TestFlight

EXPERIENCE

CodeX Lancers

Surat, India

FLUTTER DEVELOPER

Jul 2026 – Present

- Developed and maintained production-grade Flutter applications by implementing REST API integrations, Google Maps, Firebase, GetX architecture, dynamic PDF generation, and reusable UI components.
- Engineered complex features including real-time navigation, location tracking, responsive dashboards, role-based workflows, and cross-platform mobile/web interfaces while improving code quality and maintainability.
- Managed end-to-end application delivery by collaborating with backend teams, resolving production issues, optimizing performance, and publishing releases to Google Play Store and Apple App Store.

FLUTTER DEVELOPER INTERN

Jan 2026 – Jun 2026

- Architected and shipped a Flutter Web CRM platform and real-time WebRTC conferencing interface with fully responsive layouts across desktop and mobile viewports.
- Implemented native biometric authentication (Fingerprint/Face ID), platform-compliant iOS UI following Apple HIG, and scalable GetX state management with clean separation of business logic.
- Owned end-to-end release pipelines via Google Play Console and Apple TestFlight; resolved QA-tracked critical defects maintaining modular, production-ready codebase.

Secret MindTech

Surat, India

FLUTTER DEVELOPER

Jul 2026 – Present

- Built Flutter mobile apps consuming RESTful APIs for auth, CRUD, and real-time data; introduced GetX and reusable widget libraries to improve team development velocity.

PROJECTS

SOCO | Flutter, Dart, GetX, REST API, FCM, SQLite, Embrace SDK

Fintech App

- Built a multi-file async upload system with native Swift/Dart handling, resolving stuck streams and forced iCloud downloads in a production fintech environment.
- Integrated Embrace SDK with custom crash codes and lifecycle tracking; architected end-to-end account deletion flow with clean data models and full local SQL sanitization.

AlertSync | Flutter, Dart, Cupertino, GetX, Local Storage

iOS Productivity App

- Extended native Cupertino packages locally to overhaul Calendar, Reminders, and Settings modules, implementing custom UI behaviors and resolving deep layout rendering bugs.
- Engineered conditional exclusion rule engines (OR logic), multi-point date/time validation, and automatic work-hour calculations with fully offline-first local state persistence.

MeetX | Flutter, Dart, WebRTC, Socket.IO, GetX

Real-Time Conferencing App

- Engineered WebRTC meeting lifecycle with secure remote stream rendering, P2P auto-rejoin via local caching, and a multi-device video cropping engine for consistent aspect ratios.
- Built live socket-based chat with emoji reaction pipelines, sender-identity metadata mapping, and a responsive media control layer handling hardware camera fallback edge cases.

EDUCATION

Sarvajani College of Engineering & Technology

Surat, India

Master of Computer Applications (MCA) – CGPA: 9.56

2024 – 2026

SDJ International College, Vesu

Surat, India

Bachelor of Computer Applications (BCA) – CGPA: 8.56 (Distinction)

2021 – 2024

ACHIEVEMENTS

- Part of the **Design Team for Viva City 2024 & 2025** — branding and visual identity for a college fest with **900+ attendees** per season.
